Prong Collar Sizing Guide in Three Steps (Chrome-Plated Steel)

1 Choose the **wire gauge** according to your dog's weight. (See table below).

2 Size your dog's neck and add 2". (See illustrative sizing image). Example: Dog's neck size= 10" + (2") Your dog's prong collar size is at least 12."
Note: Collars should sit higher up on the neck, so measure here when determining collar size.

3 If collar length needs to be adjusted, add or remove links accordingly.

Wire Gauge According to Weight

up to 66 lb (30 kg)	2.25	up to 88 lb (40 kg)	3.25
up to 77 lb (35 kg)	3	up to 154 lb (70 kg)	4
