Earthly[®]

Earthly.

Earthly helps pet parents tackle the trickiest parts of caring for their animals, with functional recipes made from ingredients they can feel good about. We started behind the counter of a neighborhood pet store, and we created Earthly because the pet parents we worked with every day deserved better solutions than what was on the shelf.

Simple Ingredients

We focus on recognizable ingredients you might find in your own pantry, and we work hard to keep ingredient lists short.

Gentle Recipes

We keep sensitive stomachs top of mind when designing recipes, with a focus on single-source animal proteins and digestibility.

Flavor Meets Function

We focus on functional recipes that not only taste great, but serve a meaningful purpose – from dental health to pill treats and more.

Earthbones Dental Chews

Breath Freshening Treats for Dogs

Formulated for superior dental health with peppermint and parsley to freshen breath, and a unique chewy texture to help clean even the hard to reach places.
