

CATS NEED TO HUNT.

GO BOWL FREE!

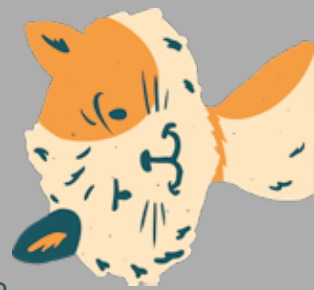

HUNTING IS NATURE'S EXERCISE.

CATS SPEND 80% OF THEIR WAKING HOURS HUNTING FOR FOOD.

Cats like to **PLAY WITH THEIR FOOD** before eating it.

A cat's **STOMACH** is approximately the **SIZE OF A PING-PONG BALL.**

FEED THE RIGHT WAY, TWICE A DAY

To be happy and healthy cats need to hunt, catch and play with three mice twice a day.

Dr. Liz Bales, VMD
Inventor

At Doc & Phoebe's Cat Co.™, **we listen to science, nature and especially our cats.** The bowl is the wrong way to feed your cat. It leads to overfeeding, laziness and frustration.

Introducing the bowl-free, naturally instinctive way to feed your cat from Doc & Phoebe's Cat Co.™; The Indoor Hunting Feeder™.

100% Veterinarian researched and recommended to improve these behaviors:

Doc & Phoebe's
CAT CO.

- Obesity
- Urinating outside the litter box
- Destructive behavior
- Night waking
- Scarf and barf
- Boredom
