

Let's face it, cats are finicky eaters and carnivores.

What we feed them is important. Treat Planet Kitty Kitty™ treats are something that you can feel good about treating your cat.

NO PRESERVATIVES · NO FILLERS · NO ADDITIVES · NO GRAIN

Hare Kitty Kitty™ 100% Freeze Dried Rabbit is a great source of Vitamin A, Vitamin B6, Taurine and more. Our pure, freeze-dried rabbit is never cooked and is free from added hormones and antibiotics.

Surf Kitty Kitty™ Wild Caught White Fish is a great source of Omega 3 for optimal skin and coat. Krill enhances the Omega 3 and adds to overall heart health. Krill has also been found to have anti-inflammatory properties for joints.

Cluck Kitty Kitty™ 100% Freeze Dried Chicken is a great source of lean protein and is low in sodium. Why Catnip? Catnip is fun for cats! Nutritionally, Catnip acts like a pleasing sedative which cats love.
